LAB OVERVIEW

What this lab will produce

We will practise documents they can prepare in MS Word/Google Docs and Gmail.

- One short technical report with correct academic formatting.
- One business letter using professional letter structure.
- One inquiry email drafted for Gmail.
- One memo or short internal notice.
- One edited paragraph showing formal technical style.

Practical, guided and assessable.

KEY IDEA

Technical writing and business writing

Technical writing

Explains technical work, procedures, data and findings.
Uses headings, tables, evidence and recommendations.
Common documents: technical reports, lab reports, project reports.

Business writing

Communicates official workplace information and requests.
Uses short, direct and polite professional language.
Common documents: letters, emails, memos, notices and replies.

Example: A lab internet problem can become a technical report; asking the office to solve it can become a business email.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

BUSINESS WRITING OUTLINE

Document decision guide

Purpose	Best document	Example
Ask for information	Inquiry email	Request catalogue, price or schedule
Report a product/service problem	Complaint letter	Wrong goods or faulty device
Answer a request	Reply email/letter	Send catalogue or quotation
Share internal information	Memo / notice	Submission deadline or meeting
Explain technical work	Technical report	Lab internet problem report

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Part A: Document Formatting in MS Word / Google Docs

We should set up the page before writing any technical or business document.

FORMAT

MS Word / Google Docs page setup

Element	Recommended setting	Where to apply
Page size	A4	Layout / Page setup
Margins	1 inch / 2.54 cm on all sides	Layout → Margins
Body font	Times New Roman 12 OR Arial 11	Home → Font
Line spacing	1.15 or 1.5 for academic work	Paragraph spacing
Alignment	Left align for business; justified optional for reports	Home → Paragraph

Rule: must set the page before writing.

Shovon Mandal [SM], Lecturer, Dept. of CSE

MS WORD / GOOGLE DOCS

Page margins and page size

1. Open Layout or Page Setup and select A4 paper size.
2. Set all margins to 1 inch or 2.54 cm.
3. Use portrait orientation for letters, reports and memos unless instructed otherwise.
4. Do not start writing before the page size and margins are correct.
5. Keep the same setting throughout the document.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

FORMAT

Font size and heading hierarchy

Text level	Academic / technical report	Business letter / email
Title	16–18 bold	Usually not needed in email
Main heading	14 bold	Subject line or section label
Sub-heading	12–13 bold	Optional
Body text	12 regular	11–12 readable professional font
Caption/source	10–11	Avoid unless needed

Shovon Mandal [SM],
Lecturer, Dept. of CSE

FORMAT

Professional font rules

- Use readable professional fonts: Times New Roman, Arial, Calibri or Aptos.
- Avoid decorative fonts, emojis and unnecessary colours.
- Keep one font family throughout one document.
- Use bold only for headings or important labels.
- Do not mix too many font sizes in one document.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

FORMAT

Paragraph spacing and alignment

Business letter/email

- Use left alignment for full-block format.
- Keep one blank line between sections.
- Use short paragraphs for readability.
- Do not indent paragraphs in full-block format.

Technical report

- Use headings to organize sections.
- Use 1.15- or 1.5-line spacing.
- Justified alignment may be used if required.
- Use consistent spacing after headings.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

LAB SUBMISSION

File name and saving practice

Recommended file name

StudentID_Name_TechnicalWritingLab.docx
Example: 231245_Rahim_TechnicalWritingLab.docx

- Save the file before beginning the writing tasks.
- Use one file for the lab portfolio unless instructed otherwise.
- Keep business emails as Gmail drafts if sending is not required.
- Proofread file name, document title and student details before submission.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Part B: Technical Report Writing

A technical report explains what was done, how it was done, what was found and what should be done next.

Technical report outline

Section	Purpose
Title page	Shows report title, student details, course and date
Abstract / executive summary	Summarizes purpose, method, main finding and recommendation
Introduction	Gives background, problem, purpose and scope
Methodology	Explains how information/data were collected
Findings / results	Presents facts, observations, tables or data

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Technical report outline continued

Section	Purpose
Discussion / analysis	Explains the meaning of the findings
Conclusion	Summarizes the main answer
Recommendations	Suggests practical action
References	Lists sources used in the report
Appendices	Includes extra tables, charts or raw data

Report on Slow Internet Connection in the Computer Lab

Prepared by: [Student Name]
Student ID: [ID]
Course: Technical Writing
Submitted to: [Teacher Name]
Department: [Department]
Date: 18 June 2026

Clear report title
Student name and ID
Course and department
Teacher name
Date of submission

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Abstract / executive summary

What it includes

Purpose of the report.
Method used to collect information.
Main finding or result.
Main recommendation.

Sample abstract

This report examines slow internet connection in the computer lab. Information was collected through observation and student feedback. The main causes were high device load and limited bandwidth. The report recommends bandwidth increase and network monitoring.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Technical report introduction

- Begin with the background of the topic.
- State the problem clearly.
- Mention the purpose of the report.
- Define the scope or limitation.
- Avoid emotional or unsupported personal statements.

Avoid this sentence

I think the internet is very bad.

Use this sentence

The internet connection is unstable during lab hours.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Technical report introduction: example

Sample introduction

The computer lab requires a stable internet connection for practical classes, online research and software updates. However, students frequently experience slow browsing and interrupted downloads during lab hours. This report identifies the possible causes of the problem and recommends practical solutions to improve network performance.

This paragraph includes background, problem, purpose and scope.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Methodology: writing format

- Explain how information or data were collected.
- Mention tools, sources, participants or observation method.
- Use past tense because the work has already been done.
- Keep the description clear enough to be repeated by another reader.
- Do not add findings in the methodology section.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Methodology: example

Sample methodology

Data were collected through student feedback, observation of lab sessions and a basic speed test conducted during peak class hours. The condition of the router and network cables was also checked during the observation period.

Useful verbs: collected, observed, measured, recorded, compared, analyzed.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Findings / results: writing format

- Present facts, observations, survey results or measurements.
- Use tables when several values must be compared.
- Do not explain too much in the findings section.
- Use objective language: “The speed decreased,” not “It was terrible.”
- Mention dates, quantities or numbers where possible.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Findings / results: example table

Observation	Result
Number of connected devices	Internet speed decreased after 25 devices
Background updates	Several computers used data automatically
Router condition	Router restarted twice during observation
Student feedback	Most students reported slow browsing

A table makes repeated observations easier to read.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Discussion / analysis: example

Sample discussion

The findings suggest that limited bandwidth and uncontrolled background updates are major causes of poor performance. The problem becomes more serious when many devices are connected at the same time. Therefore, both bandwidth improvement and network management are required.

Purpose: explain what the findings mean.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Conclusion and recommendations: example

Conclusion

- The slow internet connection affects practical classes.
- Students cannot complete online tasks efficiently.
- The main causes are limited bandwidth and heavy device load.

Recommendations

- Increase lab bandwidth.
- Check router and cables regularly.
- Restrict unnecessary downloads during class.
- Schedule software updates outside lab hours.

Lecturer, Dept. of CSE

Business writing: the 7 Cs continued

Principle	Meaning	Example focus
Concrete	Specific, not vague	Use exact item, date, quantity
Coherent	Logically organized	One idea follows another

Weak

Please send the things soon.

Better

Please send the office furniture catalogue by 23 June 2026.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Professional tone in business writing

Avoid

The goods are wrong. Fix this quickly.

Use

The delivered goods do not match the original order.
Please replace them at your earliest convenience.

- Be polite even when reporting a problem.
- Use facts instead of emotional expressions.
- Tell the reader what action is expected.
- Proofread names, dates, order numbers and attachments.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Part D: Business Letter Writing

We will prepare formal business letters using letterhead, date, receiver address, salutation, body and signature block.

LETTER

Business letter formats

- Letterhead: sender’s organization or contact information at the top.
- Full block letter: all lines begin at the left margin.
- Block letter: body is left-aligned; date and lower parts may be right-aligned.
- Semi-block letter: paragraphs are indented; lower parts are center-right.
- For lab work, full-block format is easiest and safest.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Lecturer, Dept. of CSE

Part G: Editing and Review

We will convert informal, vague writing into formal technical and business style.

EDITING

Editing from informal to professional

Informal / weak

The internet in our lab is very bad. It does not work properly, and students always face many problems. I think someone should fix it quickly.

Professional / technical

The internet connection in the computer lab is unstable and frequently affects students' practical work. The possible causes include limited bandwidth, router malfunction and poor network configuration. Therefore, the network system should be checked and maintained.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Editing focus areas

- Replace emotional words with factual descriptions.
- Replace vague expressions with exact information.
- Use formal verbs such as request, recommend, inform and confirm.
- Remove unnecessary repetition.
- Check punctuation, capitalization and sentence clarity.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

SUBMISSION

Lab portfolio: final submission

- Technical report: slow internet connection in the lab.
- Complaint letter: damaged or wrong office chairs.
- Inquiry email: office furniture catalogue.
- Memo: technical report submission deadline.
- Edited paragraph: informal to professional style.

REMINDERS

Common mistakes to avoid

- Using “Dear Sir” but closing with “Yours sincerely”.
- Writing a vague subject line such as “One request”.
- Forgetting date, receiver address, signature or designation in a letter.
- Using informal phrases such as “very bad”, “fix it quickly”, or “lots of problems”.
- Writing one long paragraph without clear structure.
- Sending an email without proofreading the recipient, subject and attachment.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

LAB GUIDANCE

Demonstration checklist

- Demonstrate A4 page setup and 1-inch margins in MS Word or Google Docs.
- Show how to use headings and body text consistently.
- Demonstrate a full-block business letter on screen.
- Open Gmail and compose an inquiry email draft.
- Show proofreading before saving or sending.

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Business writing purpose

Use the correct document based on purpose

Purpose	Best document	Example
Ask for information	Inquiry email	Request catalogue, price or schedule
Report a product/service problem	Complaint letter	Wrong goods or faulty device
Answer a request	Reply email/letter	Send catalogue or quotation
Share internal information	Memo / notice	Submission deadline or meeting
Explain technical work	Technical report	Lab internet problem report

Shovon Mandal [SM],
Lecturer, Dept. of CSE

Write clearly. Format carefully. Proofread before submission.

Thank You
